

Math Teacher Telegram Bot (Vercel Deployment)

Deploy in 3 Steps:

Step 1: Push to GitHub

Create a new GitHub repository and push these files.

Step 2: Deploy on Vercel

1. Go to <https://vercel.com>
2. Sign up with GitHub (FREE, no credit card)
3. Click "Add New Project"
4. Import your GitHub repository
5. In "Environment Variables" section, add:
 - `BOT_TOKEN` = your_bot_token
 - `GROQ_API_KEY` = your_groq_key
6. Click "Deploy"

Step 3: Set Webhook

After deployment, open this URL in your browser (replace YOUR_APP_NAME):

Plain Text

```
https://api.telegram.org/bot<BOT_TOKEN>/setWebhook?url=https://YOUR_APP_NAME.ve
```

Done! Your bot is live forever.
